An Enemies to Lovers Travel Romance

by

COLLEEN WALKER

**Rose just needs to survive traveling with her nemesis . . .
If only Grant didn't push her buttons.
If only she didn't like it.**

After Rose Randolph publicly confronts Grant Anderson at a travel panel, causing a social media sensation, their rivaling bosses force them into a partnership. Six trips in six months. Together. Working for an ethical travel company, Rose disagrees with the principles of Grant's employer, an elite travel company with big price tags.

Their first two trips in Europe show how deep their judgments go, and Rose realizes there's more to Grant than she thought. In Kenya and Tanzania, she initially resists her attraction to Grant, but she soon runs out of excuses.

When secrets about their companies emerge and an opportunistic traveler outs their budding relationship, their careers and relationship are threatened. Were their feelings only based on rivalry, or do they have more at risk than just their jobs?

Colleen Walker (she/her) gravitates to the hard-won love stories: the almost-endless pining, the second-chance romance, the two worlds colliding. Putting together her love of travel with her love of a good story, Colleen writes contemporary travel romance with lots of spice. Her characters experience the world with curiosity (even if reluctant at first!). Their best souvenir, of course, will be falling in love in the process! Colleen lives in Chicago with her spouse, their stacks of books, and shelves of typewriters. When she's not working and writing, she's daydreaming or actively planning her next travel adventure.
